Caeap cures for Great Diseases

The seeds of these disorders are effectually expelled by this penetrating Unguent, not only from the superficial parts, but from the internal tissues likewise. Any case, even if of 20 years standing, speedily yields to its BRONCHITIS, DIPTERIA, SORE THROAT, ASTEMA

Rheumatism, and erysipelas may be over-ome by frequently fomenting the affected come by frequently fomenting the affected parts in warm water, drying, and immediately applying this soothing Ointment. The same procedure applies equally well for curing sore throat, diptheria, bronchitis, asthma, lightness of the chest, and pain in the side, which instant treatment alone prevents degenerating into more serious maladies. The Ointment has the same derivative powers over chest complaints as a blister possesses, without causing pain or debility.

vithout causing pain or debility. HEMORRHOIDS-PILES, AND ABSCESSES. Thousands suffer severely for years from these annoying complaints through false delicacy. Let such purchase a pot of Holloway's Ointment, read the directions which accompany it, act upon them to the letter, and they will, without difficulty, succeed in obliterating every vestige of these

barraesing ailments. ACCIDENTAL INJURIES, INPANTILE AILMENTS. In cuts, bruises, sprains, borns, and scalds, it will be found cooling, sedative, and healing. The part affected should be fomented in warm water, dried gently, and the Ointment should be instantly applied. This purifying Ointment may be safely used in all craptions, chafings, and other cutaneous affections t

which children are liable. By rubbing the Ointment round the affected 80 BAD LEGS, BAD BREASTS, OLD SORES AND TLCERS parts, it penetrates to the tissues beneath, and exercises a wonderful power on all the blood flowing to, and returning from, the diseased part. The inflammation dimenishes, the pain becomes less intolerable, the matter thicker, and a cure is soon affected. In all long standing cases, Hollaway's Pills will thoroughly expel all depraved humors from

GLANDULAR SWELLINGS. STIFF JOINTS. This class of complaints yield without difficulty to the cooling and anti-inflamma-tory properties of this famed Ointment. It should be well rubbed over the affected parts, after due fomentation with warm water. It acts by stimulating the absorbents to increased ting a free and copious circulation in the parts affected, and hence speedily and effect-

ally ensuring a cure. GOUT, RHEUMATISM AND PARALYSIS. Gout and Rheumatiam arise from inflamma tion in the parts affected,—to effect a perma-nent cure, adopt a cooling diet, drink plenty of water, take six of these famous Pills night and morning, and rub the Ointment most effectually twice a day into the suffering parts, and a cure is certain. The paralytic patient should take about three Pills twice a week, and let the Ointment be well rubbed into the paralyzed limb, which will, in a very little time, be greatly benefitted,—indeed many cures have been affected by this treatment.

ERUPTION ON THE SEIN. In this class of complaints, no matter the age, the sex, or the place, or under what name, the disease may be classified, it may be cured if this Uintment be well rubbed into he system, and Holloway's Pitls taken night

and morning to purify the blood. Both the Ointment and Pills should be used in Pad Legs Printing cases:

"A Little too Brisk." Our intelligent correspondent at Kootenay, whose letter we published the other day, after commenting upon the needless expenditure in that district by the Government, in the way of salaries, eter asks the question if the Government into whose hands the rein of power have fallen, and therewith the disbursement of the public revenue, have not "started off a little too brisk?" The question has a more important bearing than the reader at first might suppose. It is a question in which not only the solvency of the country is involved, but likewise the interests of every individual in it. How long the Government can manage to keep up such a system of reckless expenditure, is a subject they might turn their attention to with some degree of profit to themselves and the people they represent. According to our correspondent there is a population of forty-five white persons at the principal mining camps in the Kootenay District, hard working peace-able men, for whose special protection(?) a Stipendiary Magistrate, a Chief Constable and Recorder, besides two Constables and other assistants are employed, whose aggregate salaries reach \$10,650; there Mr J. Q. Hewlings are also allowances for buildings, trails, mail services, etc , which brings the total expenditure for that part of the district up to \$18,000-or an average expenditure for each individual of \$400 per annum. The Big Band settlement is not included in the above, nor the Collector of Customs' salary, and if they were the per capita cost of each individual in that district for the maintenance of law and order would not be much less than \$500. Now We would ask, is not such an expenditure for the local convenience and preservation of order among a population numbering only forty-five white men absolutely preposterous? Our correspondent tells us that two officers could do all the work that is to be done there, BRUSSELS CARPETS and even then they would be idle eleven months in the year. "Any more," he snys, "are superflous and an eyesore to a working community." Such is the universal opinion outside the circle of officialdom. Such an array of officials in a small mining community like Kootenay is of no more real necessity than a fifth wheel is necessary to a coach, and it is about time the people began to look into reformation in the general method of conducing the business of the country. The system of fixed salaries must be put an end to, and the sooner it is done the better, Not a single Stipendiary Magistrate, salaried Gold Commissioner, Bench Clerk, or Constable, (except in a city like Victoria, where there is a regularly organized police force) is an indispensable necessity in any part of this Province. The duties of every one of these offices could be just as efficiently discharged without stated salaries as with them, whatever jy22 J. P. Davies & Co., Auctioneers. GREAT REDUCTION from one of the Leading Manufacturers at Montreal, which they Offer For Sale in lots to Suit. They consist of other parts of the Dominion the principle has been carried out with the most perfect success, and what has been done in Ontario, for instance, can just as well be done here. Let every office, whether it be magistrate, beach clerk, constable or gold commissioner, be paid by fees, and we would vouch for it gentlemen will not be wanting who would cheerfully undertake the duties. If the system which at present prevails is allowed to continue and extend, as it gives promise of doing the entire of the Provincial revenue will be absorbed in the payment of salaries to officials, men appointed to office as a reward for political services, and not a dollar will be left in the treasury to carry on public works, however much those works may be required in the interest of the country. If in the very first session of the local Parliament new offices have been created, the combined salaries attached thereto have increased the civi list to the extent of about thirty thousand dollars per annum, how long it will take at that rate of increase to swallow up the whole revenue and leave nothing for public works is a matter of very easy calculation indeed. The fact that some \$70,000 per annum are sent out of the coun'ry to enich American farmers and merchants, who supply our own markets at Kootonay because ourGovernment have neglected to provide the means of communication through British Columbia, should teach those concerned a practical lesson, and cause them to see the folly of paying money needlessly to officials that should be employed in making roads and bridges, and thereby promote settlement and the development of the resources of the coun- Boots, Shoes, Gaiters and Slippers, The experience of Kootenay is that of every section of the Province, in a greater or less degree, and until a thorough change takes place in the administration of public affairs, and retrenchment in public expenditure becomes something more substantial than a mere election hobby spon which to ride into Parliament and obtain political power

The current carried them to Sawmill Riffle, a mile and a half, where Indians, who followed in their canoes, succeedby his hair as he was going down a second time. A subscription of \$75 was raised and presented those who had saved poor "Bill." Mr. J. C. Armstrong and Mr. A. Peele were nominated for Chief and Assistant Engineers respectively, of the New Westminute Fire Department. An inquest was held on the body of Mr. Robert Dalziel, the letter referred to, contains, it is believed, farmer, Pitt River Road, who died suddenly on Wednesday morning last in his own house, and a security rendered of the rupture of a bloodyessel. He had just returned from this city; was a native of Scotland, 43 years of age, and a pioneer of the Province. There are 33 prisoners in jail at New Westminster, including 6 lunatics. Mr. Bonson has been given the contract for the construction of False Creek trail, for the sum of \$2,400. Salmen have begun to run. It is feared the

"MR. SPALDING, S. M.:—DEAR SIR: There is a report amongst the Indians here that all the white people at the Forks of Skeens, or as it is called. Hazelton, are massacred, and towns were entirely empty. The army swept before it millions of men, women and chil-dren, until the plains of Kansas were reached, when the pursuit ceased, and the army was drawn up in a continuous line, with orders to shoot anybody who attempted to visit the East. Of course hundreds of thousands of these poor people died f. om starvation. This seemed to frighten President Greeley, and he forris & Stewart, 2d.

About Farming, "should be voted for the relief of the starving sufferers. This was done, and farming implements and seeds were supplied, and then the millions of wretched outcasts made an effort to till the ground. Of the result of this I will speak

further on. In the meantime the President was doing infinite barm to the country in another way. His handwriting was so fearfully and wonderfully bad that no man can read it. And so, the tariff and agriculture-a sentence apto be "Large cultivation of rutabagas and beans is the only hope of the American nation. I am sure." The printers not being able to interpret this put it in the following form, in which it went forth to the world : "The Czar of Russia couldn't keep clean if he the Russian Minister, and the Czar was so indignant that he instantly declared war. Just at this time President Greeley underook to write some letters to Prince Bismark upon the subject of polatoe rot, and after giving him singular views at great length, be concluded with the statement that if the Emperor William said that subsoil ploughing was not good in light soils, or that guano was better than bonedust, he was 'a liar, a vil-lain and a slave!" Of course the Emperor immediately declared war, and became an ally of Rus-ia and of England, against which speech from the throne, had declared the Tra nene's advocacy of a tariff on pig iron incen-

our disasters. The Ptes deat had sent to the one shrine and that is every breakfast table formeror of Austria a copy of his book. Its arema walks the earth like a spirit and eagle, and he readily joined in a war agains the United States; while France was provoked to the same act by the fact that when the French Minister came to call on Mr. Greeley to present his credentials, the President, who was writing an editorial at the time, rot comprehending the French language, mistook the Ambassador for a beggar, and without looking up handed him a quarter and an order for a clean shirt and grubbing hoe, and said to him, "Go West, young man, go West !"

So all these nations joined in making war upon the United States. They swooped down upon our coasts and landed without opposition, for those exposed portion of our unhappy country where absolutely deserted. The President was afraid to call away the army from Kansas at first for fear the outrage people upon the Plains would come East in spite of im. But at last be did sommon the army to his aid, and it moved to meet the enemy. It cinnati the foreigners had seized Washington and all the country east of the Ohio, and had hung the President, (whose loss was not regretted), the Cabinet, and every member of Canadian Manufactured Congres. The army disbanded in alarm, and the invaders moved to the far West, vice of Greeley's book to "Try for your first crop to raise limes, and don't plant more than a bushel of the first crop to raise limes, and don't plant more than crop to raise limes, and don't plant more than a bushel of quicklime in a bill." Of course these wretched people were at the mercy of the enemy, who, to his credit be it said, treated them kindly, fed them and brought them back to their old homes. You know what followed; bow Prince Frederick William of Prussia ascended the American throne, and the other humiliations that ensued. It was a fearful blow to Republicanism, a few days since, shot his sixth panther this season. On the farm of Mr. McHugh, of a blow from which it will never recover. Trial of Stokes.

The evidence in this case being all in, and the arguments pro and con concluded, Judge Ingraham on Saturday last charged the jury as follows :

After reading the evidence, if you believe when the prisoner fired and inflicted a mortal wound, he feared great bodily harm and danger to his life, and that there was great danger of its being accomplished, he was justified in his act, and you will find accordingly. If you do not believe the act was justifiable; that it was done in a sudden heat of passion, and without any previous intent to kill, or that the prisoner might have avoided the conflict by retreating from danger, you will find him guilty of manslaughter in the third degree. If you believe the wound inflicted was not mortal, and that it was subsequent treatment that caused his death, then you must acquit him; but if you find that he was not justified before shooting, he having a premeditated design to take life, whether such design was formed before or after arriving at the botel, and that the wound the harbor a few days ago, in a water-logged then you will find the prisoner guilty of murder condition. There is room for them on earth? Who will wash their smiling faces? Who their saucy ears will box? Who will dress them, and caress them? Who will darn their little socks? Where are arms enough to hold them?

Hands to pat each shining head?
Who will praise them? who will scold them Who will pack them off to bed? Little bappy Christian children, Little savage children too, in all stages, of all ages, That our planet ever knew !

Little princes and princesses. Little beggars wan and faint, Some in very handsome dresses, Naked some, bedaubed with paint. Oh think of the confusion Such a motley crowd would make!
